BLACKSMITH SHOP BURNED

Jack McClurg Suffers Loss in Blaze Monday Night

Monday night saw a spectacular blaze on the east side of town, when the blacksmith shop belonging to Jack McClurg's big breaking outfit was burned to the ground with a loss estimated at \$800. The fire was first noticed by Mrs. Frank Steed, a neighbor of the McClurgs. She gave the alarm and a large crowd soon assembled. The fire brigade did not take the apparatus as they were led to believe that there was no cistern in the neighborhood, but this was a mistake. The building burned merrily to the ground, throwing up a shower of sparks that for a time threatened the surrounding buildings. Many valuable blacksmith and carpenter tools brot the loss up to \$800, with no insurance.

The origin remains a mystery, as no fire had been used after 3 o'clock of the afternoon previous.

COMMENT

S. H. Andrews, of the Great West Saddlery Co. Ltd., Calgary, says "Your paper is a fine one, and a credit to your town." Mr. Andrews, being on the road continually, is a competent judge of what is best in local journals.

As an immigration agent who delivers the goods, you have to hand the reward to our friend, E. B. Rose. Rose's trip home to Oregon last winter has borne fruit.

"The Busy Burg" is right, especially last Saturday and Monday. Printer's ink helped do it.

Next Thursday is clean-up day in Carlstadt. Cleanliness is the first step toward real "civic improvement," and we should not rest till "flower seeds are planted where seeds of disease are now." Never mind who's to blame, just get out and clean up. Don't stop at the lot line, look well to the mess in the alley, and do not forget the vacant lot next door.

W. A.

The Women's Auxiliary meeting held at Mrs. F. Stead's last Tuesday afternoon was well attended, and the membership roll added to. Work is progressing satisfactorily toward the May Fete on the 28th of this month. Besides well known local talent, we are fortunate in the promise of Miss Sidney Anderson, violinist of the Ottawa Symphony Club, and Miss Lenora Stevens, pianist of Medicine Hat, recently of Haverhill Hall, Toronto. The Astanac club has been spoken for, and music promised for the dance, so with fine weather, all should go well.

The W. A. will meet again d.v. at Mrs. C. H. Wagner's on Tuesday of next week, May 13th. A full attendance of members is requested, and others interested in the work.

Ross Smith, Frank Hannum and Nels Estwick occupied ringette seats at last week's boxing contest in the Calgary arena.

Henry Gellow, of Welsedale was in Carlstadt for a couple days this week. He took home a big load of fence posts from the Finlay Lumber Co., and incidentally left his name at the News office as a subscriber.

Local Farmers Plant Trees

Prospects for a treeed up farming country around Carlstadt were increased materially last week when the following received shipments of young trees from the Indian Head experiment farm—H. G. Hanson, K. Harris, R. Nunnenmaker, C. O. Olsen, Richard Virmstad, L. J. Swanson, A. D. Thompson, H. L. Waning, J. H. Gasser, Nels Ottern, D. F. Ferrell, J. J. Gardell, H. S. Gerow, George Gundersen, E. A. Berg, Chas. E. Bell, John J. Bell, J. L. Brown, W. Cutsforth, W. R. Hoyle, D. A. Lietch, W. Myran, C. H. McKinnon, T. Myran, F. J. Hinkel, C. C. Harrell, L. D. Harrell, E. G. Gish, H. Larsen, McCracken, and A. Burgett received large orders from the Brandon experiment farm, and Mr. Gish also had a shipment from Virden, Manitoba.

Annual Meeting Methodist S.S.

On last Thursday evening was held an annual business meeting and election of officers of the Methodist Sunday school. Nearly all the present incumbents were re-elected, as follows: F. E. McDiarmid, superintendent; H. R. Bean, C. W. Beard, Mrs. C. W. Beard, Miss Joyce Lietch, teachers; Mrs. F. E. Chydale, song, Home Department; Miss Edna Armstrong, librarian; H. S. Ketchum secretary. Reports given show the Sunday School to be in a flourishing condition.

Y. W. C. T. U.

The Carlstadt Y held its monthly meeting May 1st at the Gish home west of town. Most of the members went up on the train in the morning, returning on the 6 o'clock.

The forenoon was taken up with a Bible-Reading, prayer, and a song service. A Physical Culture banquet was served at noon, and the afternoon was devoted to a physical culture program interspersed with music. A number of good papers had been prepared and were read, on such subjects as Food, Clothing, Ventilation, Care of the Complexion, Hair, Teeth, Hands, Feet, etc. This was followed by a Physical Culture drill in the open air.

Three delegates were elected to attend the district convention in Lethbridge May 15-16, namely, the Misses Dile Askew, Bessie Williamson, and Alma Lockrem.

May 13th was the date set to hold the Oratorical contest. Two classes, one of matrons and one of young women, will compete for the W.C.T.U. silver medal.

The June meeting will be held in the church, when the defeated side in the membership contest will serve lunch. Let all members keep it in mind and visitors will be cordially welcomed.—The Secretary.

2. That there shall be a Poundkeeper for each pound whose remuneration shall be such fees and charges as he shall be entitled to under the tariff, prescribed by the Minister.

3. That the said Pounds shall be for the impounding of animals at large or trespassing contrary to the provisions of any By-Law of the Rural Municipality of KING No. 153, which said impounding may be done by any person.

4. That the following animals shall be restrained from being at large—Horses, Mules, Cattle, Sheep and Hogs.

6. That animals at large shall be restrained throughout the whole year in all parts of the Municipality whether the property of occupants or others.

7. That animals required by this By-Law to be restrained from being at large shall be detained in the following manner, that is to say the person making the detainer shall drive the animal or animals found at large off the premises upon which he found them by the shortest possible route consistent with the avoidance of damage to crops or otherwise and shall forthwith drive the said animals along the public road to the nearest pound where he shall deliver them to the care of the Poundkeeper who shall keep them, during such detainer, in the Pound of which he is the Poundkeeper and deal with them in the manner hereinafter prescribed.

10. Every Poundkeeper shall at his own cost keep the Pound to which he is appointed, clean and in good repair and shall supply the animals impounded therein with sufficient and wholesome sustenance and provide for them such shelter as is commonly provided at the time for animals of similar age and class in the vicinity and the Poundkeeper may send such animals out of his pound at fit times and to fit places for grazing and watering, and every Poundkeeper shall be responsible to the owner of any impounded animal for all loss or damage occasioned by any act or negligence of himself or his agent; in no case shall an open wire corral be regarded as a suitable pound.

11. If the owner of any impounded animal is known to the Poundkeeper as the owner of such animal the Poundkeeper shall forthwith deliver at or mail by registered post to the address of such owner a notice in the form hereinafter provided.

(a) In case such owner is not known, or such owner or person notified shall not within ten days after the posting or delivery of such notice appear at the pound and release the animal so impounded by the payment of the lawful fees, mileage rates and claims for damage, the Poundkeeper shall cause to be inserted once each week for two consecutive weeks in some newspaper circulating in the vicinity of the pound, a notice in the form hereinafter provided.

Notice is hereby given under Section 210 of the Municipalities Act that [description of animals impounded giving registered brand, if any, marks or points] was impounded in the pound kept by the undersigned on the [description of quarter section or other place where pound is located] on—

(Signature of Poundkeeper.)

12. Every Poundkeeper shall without charge in addition to any copies of and notices which he may be required under this Act to post or deliver, post a copy of every such notice in a conspicuous place at his pound and in the nearest postoffice and shall keep and maintain such notice at his pound during the whole of such time such notice may refer to.

13. When any animal shall not have been released from the pound within twenty days after the Notice has been inserted for the last time in a newspaper as in Section 210 of

the Rural Municipality Act mentioned the said animal shall be sold by public auction after notice of such sale shall have been posted for eight days in three conspicuous places within the Municipality, one of which shall be the Post office nearest the pound and at such sale the Poundkeeper shall be the auctioneer, and such sale shall be held at the pound or at such other place as may be designated by By-law of the Municipality and shall commence at the hour of two o'clock in the afternoon and the Poundkeeper shall not either in person or by his agent purchase any animal at such sale or have any interest of any kind in any animal so purchased.

14. If more than one animal is impounded and the owner thereof is known the Poundkeeper shall only sell sufficient of such animals to satisfy the claims for damages, expenses and fees chargeable against the animals and the owner of the animals shall be entitled to those remaining unsold.

[b] If the owner of the animals is unknown, the Poundkeeper shall sell the animals impounded.

[c] The Poundkeeper shall immediately after such sale send to the treasurer a description of the animal sold, the date of the sale the amount realized and the disposition thereof.

15. No Poundkeeper making a sale under the provisions of the Rural Municipality Act and of this By-law shall be liable to a penalty for selling without a license as an auctioneer.

16. The proceeds of the sale of any impounded animal sold under the provisions of this Act shall be applicable in payment—

a. Of any costs and charges attending such sale.

b. Of all sustenance fees.

c. To the impounder of such animals of the amount due to him for mileage charges and for damage done, and the residue, if any, shall be paid to the owner of such animal or if not claimed at the time of sale by any person entitled thereto, to the treasurer of the Municipality.

17. The owner of any impounded animal may give notice in writing to the Poundkeeper that he intends to obtain the release of the animal against the person impounding such animal and upon receiving such notice and upon deposit with the Poundkeeper of the amount claimed for damages together with the pound fee or authorized fees and charges, the Poundkeeper shall release such animal and shall retain such amount subject to the order of a Justice of the peace as hereinafter provided.

Such complaint may be upon any one of the following grounds:

a. That the impounding was illegal or

b. That the damages claimed are excessive, or

c. That the impounding was illegal but that in any event the damages are excessive.

But the Justice shall not require upon any complaint notice of which has not been given.

18. Within ten days after giving

the notice in the last preceding section mentioned, the owner may lodge his complaint, as set forth in the notice with a Justice of the peace, who thereupon shall institute the like proceedings as are authorized under the Criminal Code for Justices making orders for the payment of money and upon hearing the complaint the Justice may determine the matter of such complaint, and if the Justice—

1. Adjudges that the animal impounded was illegally impounded as claimed, the Justice shall order the said animal, if not released, to be restored to the owner, or, if released, the money deposited with the Poundkeeper to be repaid, and in either event, the Justice shall order the impounder to pay the costs of the proceedings and all fees which the Poundkeeper is lawfully entitled to, or

2. Finds on a complaint laid as in Clause B of the last preceding paragraph, the amount of damages the impounder has sustained to be less than claimed, the Justice shall order the excess and the owner's costs of the proceedings to be paid to the owner by the Poundkeeper out of the money paid in by the owner and if no money has been paid in by the owner, the Justice shall order the payment forthwith of the amount of the damage so fixed less the costs of the proceedings, and in default of such payment, the animal impounded shall be sold and the proceeds applied as hereinafore directed by this By-law.

3. Adjudges that the animal impounded was legally impounded or that the amount of damage was not less than the amount claimed by the impounder, then the Justice shall make an order for the payment forthwith of the amount claimed, and all pound and other authorized fees together with costs of such proceedings and in default of such payment the animal impounded shall be sold and the proceeds applied as hereinafore directed by this By-law.

4. Finds on a complaint laid as in Clause C of the last preceding paragraph that the animal was legally impounded but the damages sustained by the impounder were less than claimed, the Justice shall make an order as directed by Paragraph two hereof but shall not allow costs to either party and the proceedings shall be taken on any such other orders as provided in such paragraph.

17. Nothing contained in this By-law shall deprive the owner of any animal impounded of any action, remedy or right that he may have at common law or otherwise by reason of the same being unlawfully seized, detained or impounded.

18. Nothing herein contained shall prevent the owner of any lands trespassed upon or of any property destroyed from waiving rights created by this By-law and bringing his action in any competent Court in consequence of any trespass.

19. Any person convicted of a breach of this By-law shall be liable to be punished by the By-law providing for the enforcement of the By-laws of the Municipality.

WEBSDALE WARBLINGS

This section of Alberta is very much alive, although the absence of the "warblings" may have led many to believe otherwise. Every one is busy seeding or preparing for seed. All wheat is sown, some of it already showing above ground. Nearly all oats is sown. Some are breaking for flax and the thud-thud of the oil-pulls are plainly heard, but the smoke of the steam tractor is not to be seen yet this year, as no fuel can be obtained for them.

A few weeks ago we were favored by a prairie fire within five miles of each other in one week. Two of them burnt a considerable area; but three of them were soon extinguished. Mr. F. N. Rowland had the misfortune to lose his barn and haystack through one of these fires.

Nearly all our bachelor friends and neighbors have left the home-steads for work elsewhere.

Daddy Stork, while migrating north with the ducks and geese, stopped overnight at Mr. W. J. Laidlaw's and left him a daughter, on April 29th.

Mrs. Jones of West Salem, Wis., arrived here last week to visit her son, Mr. E. W. Jones, for the summer.

Mrs. L. G. Sparks is home from a visit to Kansas, and Guy is once more a benedict.

Mrs. W. H. Holt of Seattle, Washington, came last week to join her husband, who has filed on some land in the vicinity.

The work on the grade is progressing very favorably, changing the face of the country and the expression on the faces of those who have waited for its appearance. There are now four construction camps and one surveyor's camp. There are two cuts, one forty and one fifty feet; to make, also a thirty foot fill. Where Noehren's camp is located, one million yards of earth are to be moved. We have it on good authority that the committee in Range 9 is to be called Jennar and that the one in Range 10 will be Edisbleigh. Watch Jennar grow.

FROM THE CANADIAN PACIFIC

Wonderfully fertile land is offered for sale by the Canadian Pacific Railway Company at prices ranging from \$11 to \$30 per acre. There is no better agricultural land than this virgin Canadian soil. It is unsurpassed for all forms of agriculture, including grain growing, stock raising, dairying, poultry culture, vegetable growing, and general mixed farming! The lands are convenient to railways and markets, and are located in a land of low taxation and delightful climate.

TWENTY YEARS TO PAY

Under the Company's new policy, no land is sold to speculators, but only to those who will occupy and improve it. The terms of sale are now on a twenty-year cash and the balance spread over twenty years, with interest at six per cent per annum.

ASSISTANCE TO FARMERS

Under certain conditions the Company will advance a loan of \$2000 to new settlers to be used in erecting a house and barn, fencing the land, and sinking a well. This loan is repayable on the same terms as the purchase price.

The Oldest Bank.

The Palazzo San Giorgio on the Piazza Caricamento, Genoa, has played an important role in the history of this Italian city and of the world of business. It was built in 1200 by order of Guglielmo Boccanegra, captain of the republic of Genoa, and, after serving as his residence, was the headquarters of the celebrated company and bank of St. George. Our modern system of banking sprang from this historic edifice and the Società delle Comere di San Giorgio was the first limited liability company. The architect of the place was a monk named Oliviero. Although its architecture has undergone a number of changes the facade still speaks eloquently of the thirteenth century. Its arcades with pointed arches and its windows formed of little columns are exceedingly charming.—Wide World.

When Leather Was Money.

Leather was very early used as a currency, the Romans employing it for this purpose before either gold, silver or brass came into common use. History is full of references showing that leather was used by the ancients as a sort of circulating medium of exchange. It is said on good authority that so late as during the reign of Louis XII. of France the country became so impoverished and as a consequence money was so scarce that little pieces of leather with a small silver nail driven through each were in general use as money. Some few specimens of this leather money are still in existence, but are only to be found in the possession of numismatists, by whom they are highly prized.
Malleability of Gold.
The malleability of gold is so great that a single grain may be divided into 2,000,000 parts and a cubic inch into 2,023,000,023 parts, each of which may be distinctly seen by the naked eye. A grain and a half of gold may be beaten into leaves of one inch square, which, if intersected by parallel lines drawn at right angles to each other and distance only the one-hundredth part of an inch, will produce 25,000,000 little squares, each of which may be distinctly seen without the aid of a glass.

As Usual.

"You may say what you will," said the lady, "but I think that you will find women less wicked than men. I confidently expect that heaven will be inhabited principally by women."
"Very likely," answered the man.
"The men will be found, as usual, in the smoking room on the floor below."

Three Hundred and Twelve Names

Three hundred and twelve new names on the list in ten months.
3 1 2. What do you know about that for jumping along, eh?

Three months ago we told you we had two hundred and nineteen new subscribers. Since that time nearly one hundred more have been added to the list. More are coming in every week and every day.

We have tried to make THE CARLSTADT NEWS the best possible kind of a district newspaper. We believe that we have done quite a bit towards the accomplishment of our object. Why do we think so? Well, you don't get three hundred and twelve new subscribers on your list unless you have done something to attract them.

Our thanks for the many messages of congratulation received. They are encouraging. Our aim is that they shall continue to be merited. Your co-operation has been and will be appreciated. If you can steer a new subscriber our way, will you do it? Perhaps, if at present, you are only a reader, you will send in one dollar for the Carlstadt News for one year.
